Subject: CDC Updates for Clinicians: Swine Influenza A (H1N1)

HRSA has been working closely with the Department of Health and Human Services and the Centers for Disease Control and Prevention to monitor developing events related to the Swine Flu Outbreak both here in the United States and abroad.

For information on swine flu, visit www.cdc.gov/swineflu

Swine Influenza A (H1N1)

As of 9:00 AM on April 26, 2009 CDC has confirmed 20 human cases of Swine Influenza in the U.S. Investigations and surveillance are ongoing. As this situation unfolds, the Centers for Disease Control and Prevention (CDC) is committed to providing information to its partners, so that you can stay informed and communicate accurate information about this viral illness to your constituents.

COCA Conference Call

4/27/09 at 2:00PM ET

This edition of the CDC Update for Clinicians provides specific information on the ongoing CDC investigation on Swine Influenza A (H1N1). A COCA Update will be sent tomorrow addressing all other topics. If you have any questions on these or other clinical issues, please write to us at coca@cdc.gov. If you have received this update from a colleague and would like to subscribe to the listserve, please visit <http://emergency.cdc.gov/clinregistry/>.

TITLE: Swine Influenza Investigation Update
SPEAKER: Timothy Uyeki, MD MPH MPP

DATE: Monday, April 27, 2009
TIME: 2:00 - 3:00 PM ET

CALL-IN NUMBER: 888-283-2960 PASSCODE: 1360172

There will be no PowerPoint Presentation for this call and no Continuing Education Credits/Contact Hours available.

This COCA call will also be available via listen-only audio web site at <http://www.emergency.cdc.gov/coca/callinfo.asp>.

When feasible please call in as groups to allow as many people as possible to listen to the call. If you do not get through on your first attempt please call back and try again.

The audio recording of the call should be posted to our website a couple of hours after the call has ended."
