Indiana State Department of Health - Advisory - 610 Update

Currently the Indiana State Department of Health is experiencing technical difficulties. As a result you may have problems accessing the website mentioned in Indiana State Department of Health - Advisory - 610 - INDIANA REPORTS CONFIRMED CASE OF NORTH AMERICAN HUMAN INFLUENZA A (H1N1). Please keep in mind you may still use the call center numbers for any questions you may have.

The Indiana State Department of Health (ISDH) has created a call center to answer general questions from Indiana residents. Residents may call 877-826-0011 from 8:00-4:45, Monday-Friday.

A second call center has been created for health care providers. This call center is staffed by physicians. Providers with specific clinical questions should call 866-233-1237.

We hope to have the situation resolved as soon as possible.
